MUKESH PATEL SCHOOL OF TECHNOLOGY MANAGEMENT & ENGINEERING

Shekhar Bhojane
B.Tech Information Technology | Batch 2027
shekharabhojane00007@gmail.com

Education

SVKM's NMIMS University, Shirpur **2023 - 2027**
B.Tech in Information Technology
CGPA:- 8.22

R.C. Patel Junior College, Shirpur **2020 - 2022**
HSC : 90.33%

R.C. Patel Secondary School, Shirpur **2020**
SSC : 93.80%

Projects

DriveNow – Java Console-Based Car Rental Management System - Feb 2025
GitHub : https://github.com/bhojaneshekhar/JAVA-Project

- Developed a console-based Car Rental Management System in Java to streamline vehicle rental, return, and booking management.
- The system includes an admin module for vehicle management, pricing updates, and booking history, while using Java file handling to ensure persistent data storage without requiring an external database.

Real-Time Occupancy Counter using OpenCV and Arduino - Jan 2025
GitHub : https://github.com/bhojaneshekhar/Smart-People-Counter-IOT

- Developed a computer vision system to detect and count people entering and exiting a space in real time using background subtraction and contour detection.
- Implemented bidirectional counting logic with object tracking to differentiate incoming and outgoing individuals.
- Integrated the system with Arduino and TM1637 7-segment display via serial communication to display live occupancy count.
- Designed the solution for smart building and crowd monitoring applications.

Healthcare Web Application Hackathon – NMIMS Hyderabad
GitHub : https://github.com/bhojaneshekhar/Hackathon-Project

- Certificate of Participation awarded for contributing to the development of a healthcare website as a core member of a 6-person team.
- Responsible for both frontend and backend implementation, delivering a functional, user-centric solution to simplify access to medical resources and patient data management.

IoT-Based-Gas-Leakage-Detection-System-using-ESP32
GitHub : https://github.com/bhojaneshekhar/IoT-Based-Gas-Leakage-Detection-System-using-ESP32

- Developed an IoT-based gas leakage detection system using ESP32 and MQ sensor to monitor gas levels in real time.
- Integrated Blynk platform for remote monitoring and instant alerts, with LED, buzzer, and LCD for local notifications, enhancing safety and early hazard detection.

Internships

ASORG Softtech India Pvt. Ltd. — Frontend Developer Intern
Jan 2025 – Jun 2025

- Developed and enhanced a Bootstrap-based visual website builder, enabling non-technical users to create responsive web pages
- Optimized drag-and-drop editing workflow, resulting in improved user experience and smoother frontend interactions
- Collaborated with the development team to implement responsive design and ensure cross-device compatibility

MUKESH PATEL SCHOOL OF TECHNOLOGY MANAGEMENT & ENGINEERING

Shekhar Bhojane
B.Tech Information Technology | Batch 2027
shekharabhojane00007@gmail.com

CORE SKILLS

Technical Skills

- Languages: Java, C++, SQL
- Frontend: HTML, CSS
- Backend: Spring Boot
- Databases: MySQL
- Cloud & DevOps: AWS (IAM, EC2, S3, EBS, AMI, ELB, Auto Scaling Groups), Docker, Jenkins (CI/CD)
- Analytics: R, MATLAB
- Tools: Git, GitHub, Power BI
- Concepts: OOP, Data Structures, OS, DBMS, Computer Networks.

Soft Skills

- Effective Communication
- Technical Writing
- Team Collaboration
- Problem-Solving
- Analytical Thinking

Achievements and Positions of Responsibility

- Recognized with a Certificate of Participation at the NMIMS Hyderabad Hackathon for developing a healthcare web application addressing real-world patient data management challenges.
- Recognised for innovation and teamwork at the Avinya Club Creative Tech Workshop (NMIMS Shirpur) for successfully demonstrating an Occupancy Counter System integrating computer vision and embedded hardware.
