Education

SVKM's NMIMS University 2023 - 2027
B.Tech in Information Technology
CGPA:- 8.22/10

R.C. Patel Junior College 2020 - 2022
HSC : 90.33%

R.C. Patel Secondary School 2020
SSC : 93.80%

Professional Summary

Information Technology student with hands-on experience in **Python, SQL, FastAPI, PostgreSQL, and data processing**, with a strong foundation in backend development and database management. Skilled in building REST APIs, developing ETL workflows, and analyzing data using Pandas and NumPy. Familiar with **Generative AI, LLM APIs, and prompt engineering**, with an understanding of AI-driven automation and intelligent application development. Strong problem-solving and analytical skills, with a keen interest in building scalable AI solutions, intelligent agents, and NLP-powered applications.

Projects

Healthcare Analytics Platform | Python, React, FastAPI, PostgreSQL GitHub

- Developed a full-stack analytics platform using **Python, FastAPI, and PostgreSQL, building REST APIs and database-driven workflows** for healthcare data processing**.**
- Implemented **ETL workflows** and **SQL-based analytics** using **CTEs** and **window functions** to generate insights into appointments, revenue, patients, and operational performance.

S&P 500 Stock Analysis Dashboard | Python, Pandas, NumPy, Data Analysis GitHub

- Performed **data cleaning, exploratory data analysis, and feature engineering** using Python, Pandas, and NumPy to analyze historical S&P 500 stock data.
- Calculated **daily returns, moving averages, and volatility** to compare performance and risk profiles, and developed an interactive **Power BI dashboard** for trend and risk analysis.

IPL Analytics Power BI | Dax, Data Modeling, KPI Analysis Github

- Built a **star-schema data model** in Power BI using five related datasets to analyze IPL match, player, team, and delivery-level performance.
- Developed **DAX-based KPIs and interactive visualizations** to compare winning margins, bowling economy, and seasonal performance trends.

Internships

ASORG Softtech India Pvt. Ltd. — Data Analyst Intern Jan 2025 – Jun 2025

- **Analyzed** user workflows and performance data to identify **usability and process improvement** opportunities.
- **Identified and resolved** issues through analytical problem-solving, improving **performance and cross-device compatibility**.
- **Collaborated** with the development team to evaluate requirements and implement **data-driven improvements**.

Certifications

- **AWS** — AWS Cloud Practitioner Essentials | 2026
- **Coursera** — SQL Fundamentals for Beginners | 2025

Core Skills

Technical Skills: Java | Python | SQL | MySQL | OOP | Data Structures | DBMS | Operating Systems | Computer Networks |Git | GitHub | AWS | Docker | Jenkins (CI/CD) | Power BI | FastAPI | Rest API | PostgreSQL | SQLAlchemy | Data Modeling | Pandas | NumPy | ETL | Exploratory Data Analysis | Data Cleaning | Feature Engineering | Generative AI | Prompt Engineering | LLM APIs | RAG.
Soft Skills: Problem-Solving | Team Collaboration | Effective Communication | Analytical Thinking | Decision Making | Risk Analysis.

Achievements and Positions of Responsibility

- Certificate of Participation, NMIMS Hyderabad Healthcare Hackathon – developed a healthcare web application as a core team member.
- Recognized for Innovation & Teamwork, Avinya Club Creative Tech Workshop – built a Real-Time Occupancy Counter System using OpenCV and Arduino.
